## Thermal Packaging Solutions

Our ThermaPost Solution consists of a Thermal Liner and a Sealable Courier Pack

Products that are frequently used in our ThermaPost are:

- Temperature Sensitive Foods
  - Pharmaceuticals
  - Liquids/Drinks
  - Confectionary's
  - Bottles/Cans

We offer ThermaPost in the following sizes:

- Small: 200 x 120 x 290 (Approx. 7 Litres)
- Medium: 300 x 120 x 290 (Approx. 11 Litres)
- Large: 300 x 120 x 400 (Approx. 16 Litres)

In this solution we also supply a Jig, Tape Gun and Tape on your first order.

Watch our How-To Video on the link Here.

# Thermal Packaging Solutions

## ThermaPack Ultra Double

Our most popular insulation solution consists of a high performance industrial bubble layer with entrapped air, on its outer surfaces are two highly reflective layers of aluminium coated with an ultra thin protective surface to protect the aluminium for the life of the product. This product is around 4mm thick and is equivalent to around 55mm of Polystyrene.

## Technical Data – ThermaPack Double

<b>Thickness</b>	3.7mm
<b>Outer Layers</b>	True Aluminium Foil
<b>Emissivity</b>	0.05
<b>R-Value (with x2 25mm Cavity's)</b>	1.455m <sup>2</sup> K/W
<b>Polystyrene Equivalence</b>	55mm
<b>Water Vapour Resistance</b>	600MNs/g
